# EVENT SERVICES INTRODUCTION

---

We focus exclusively on special guest accommodations, event production, and touring. In addition to having an affinity for those services, we also have extensive experiences that were acquired and tested in the field. The know-how is beyond philosophical; it's earned. In every aspect of our three-service offering, we plan, navigate, sweat, and acquire dirty hands to evolve your imagination into a skillfully executed reality. This deck includes images of our work. Certain production and touring services are in partnership with Performance Marketing Group.

## SPECIAL GUEST ACCOMMODATIONS

---

When key personnel, clients, and special guests arrive to be seated, your outdoor event shouldn't feel like outdoors.

# EVENT PRODUCTION

---

Whether the environment consists of trussing, tents, or custom trailers, productions are like puzzles. There are hundreds of seemingly disparate pieces. Achieving promises of the blueprint require elements to be carefully assessed, categorized, and chronologically assembled into a collective whole.

# TOURING

---

Market dynamics and nuances should not override consistency. Personnel, equipment, and vehicles are the only resources that should move over the course of a tour. Whether ten markets or thirty, the concept, experience, and presentation must be ironclad, static, and franchised.
